## Net Picker For Windows

NetPicker is the first tool that can save and organize information on the web. NetPicker is similar to a browser bookmark. When you use NetPicker, all the Web pages that you have visited will be saved in the program. You can select the portion that you want to save and the fonts will be saved according to the page that you visited. At any time, you can also retrieve any saved page by dragging it. You can also drag the selected portion of the web page and save it as you like. You can even make notes for your images, fonts, tables, etc. If you want to use NetPicker as a powerful notepad, you can easily check the format of the HTML files, or write down your notes in the original format. If you are looking for a notepad to write down your plans for projects, NetPicker is the ideal program. This software is also helpful if you want to organize the data that is not in the Internet. Even if you want to record the instructions on a video tape, you will easily find them. Installation: Execute the setup file in the NetPicker installation directory or extract the archive then double click setup.exe to start the installation process. HELP To help you in every way during the installation, The reader of this software will meet during the installation. If you do not understand how to install NetPicker, this reader can be found at each step of the installation. There will be the following menu in the installation: - Setup - RunNetPicker\_User - RunNetPicker\_Admin How To Use: 1. Open NetPicker and press the "Start The Program" button. 2. In the Main window, left-click on the "Folder Selector" button (this button will appear on the bottom right) and then drag a piece of web data to save it. 3. You can select the top layer of Web Data that you want to save the data of, and then drag any part of the web page that you want to save to the archive. 4. When you have selected the data to save, right-click on the data that you want to save it and then select "Save As". 5. After that, you will be prompted with a "Browse" window, where you can save the data. 6. The file you saved will appear after the end of b7e8fdf5c8
